

Non-controlled: (no vapor control mechanism)

A) Non-controlled: (no vapor control mechanism)

(1) The Customer will pay to the actual costs incurred for third party contractor services plus 15% for tank degassing and refill.

(2) The Customer will be limited to no more than twelve (12) roof landing events per tank on a twelve (12) month rolling period.

(3) Roof Landings will require pre-approval of at least forty-eight (48) hours in advance of The Customers intention to land the roof. Roof landing for inventory control purposes (“Convenience Landings”) as defined by TCEQ are prohibited. Tank roof landing events are only authorized for maintenance of a tank or product changes (incoming product different than previously stored product).
